

Invitation

National Environmental Science Programme

**Are you interested in how cities are planned, designed and built?
Please join the CAUL Hub at this important research update & planning workshop.**

The CAUL Hub is undertaking major research projects in Air Quality, Urban Greening, Liveable Urban Systems and Urban Biodiversity.

This all day event is presented in two parts. Please join us for part or all of the day.

- The *morning session* will provide an update on our progress to date.
- The *afternoon session* will be a series of guided discussions on our proposed research, for which we seek collaboration and feedback as to its relevance to decision makers and city practitioners as well as the wider research community.

Your input will make our research more relevant to your work, so please consider attending. We look forward to seeing you!

Melbourne: Thursday 27 July, 9:30 am – 4:30 pm

Drill Hall, Multicultural Hub, 506 Elizabeth St, Melbourne

This event is catered so please advise any dietary requirements
